

Gives you the ability to look up resources:

- By name or abbreviation of resource
- By your own private resource entries
- By any word(s) in the name of resource
- By city
- By category or subcategory
- By county
- By any part of a word in the resource description
- By language
- By Zip Code
- By any combination of the above

Gives you the ability to

- Add and store your own private resources in GOODS database; available only to you
- Request information updates--built-in feedback button for updates and corrections; real-time (instant) data corrections
- Search on both public and private resources simultaneously or separately
- Create lists of resources for any combination of listings
- Instantly create standard mailing labels
 - by zip code order (for bulk mailing)
 - by alphabetic order
- E-mail a resource profile
- Print a resource profile
- Develop lists of referrals to resources for clients or co-workers
- Hyperlink to the resource website
- Hyperlink and print map and driving directions to or from services
- Add-on feature allows you to create and print your own current directory for all resources in your county or create any directory for your target population all within minutes

Resources come, go, move and grow

Service providers can now give up the time-stealing task of keeping resource information current.

GOODS is used by:

- Hospital discharge planners
- Parole & probation officers
- Social & Caseworkers
- Counselors
- State & County human service staff
- Parish Nurses
- Employment counselors
- Outreach workers
- Crisis workers
- Information & Referral Services
- Libraries

and many other human service providers

GOODS is a tool for providers who serve Oregonians

GOODS -

Gives you access to key health and human service agencies, non-profits and programs in Oregon. Organized by category and by county, you may select a target service area and build a list of resources within a geographic area or within a category.

Example: Locate domestic violence services in Oregon in seconds. Print off lists for yourself or your client.

Example: Locate food, shelter and clothing in a city or a county.
